Search Descriptions:

Person Search: Person Searches are targeted so you can find the most you can about an individual, from skip tracing them, to building a detailed profile.

Phones Plus Search: The Phones Plus application provides access to over 50,000,000 phone numbers not typically published, such as non-Electronic Directory Assistance records, including cell phone and unlisted numbers. Numbers are updated daily.

Email Address Search: The Email Address search can be used to find an email address for an individual or to reverse search to find the individual that belongs to the email address.

Deep Skip Search: Deep Skip allows you to include additional information about your subject, such as a relative name or previous state of residence, or even use partial information you may have, to more accurately pinpoint where they may be currently located.

*Accurint searches are free of charge on a limited basis to investigators utilizing services of the CCTST.
